

## COVID-19 Summer Camp Guidelines

We are excited to have you back at Red Butte Garden for Summer Camp! We want this summer to be as normal as possible but we have made a few adjustments to help keep everyone safe and healthy.

**Please read and review the following guidelines.**

All guardians will be required to read and sign a forthcoming Acknowledgement Form stating that you and your camper will follow our guidelines. Failure to follow these guidelines may result in your camper not being eligible to attend summer camp.

**Location:** Camp will take place primarily outdoors with limited use of indoor spaces.

**Help protect your camper and others:** We will follow physical distancing guidelines during summer camp. Please explain to your camper that they will need to maintain 6 feet of distance between themselves, other campers, and Garden staff as much as possible. If your camper is sick or has been in contact with someone who is sick, please stay home.

**Hand Washing:** We will have hand washing breaks at key times throughout camp, such as before and after eating and when using shared equipment. Each camp instructor will carry sanitizer and make it available to campers as needed.

**Face coverings:** In accordance with state guidelines, it is strongly recommended that campers wear a mask that meets [current CDC standards](#). Campers must be able to put on and take off their masks themselves. We recommend bringing a second mask in case your camper would like a fresh one partway through camp.

**Capacity:** All camps have a limited number of campers with two Garden staff, and the number of camps running at the same time has been reduced.

**Health Screening:** To help keep our campers and staff safe, campers who are feeling sick must stay home. Each day, individuals arriving at camp will be screened for COVID-19 by being asked the following questions:

- Is your child experiencing any of the following symptoms?
  - A fever of 100.4°F or higher (any time within the last 24 hours)
  - A new or worsening cough
  - A sore throat
  - Tightness in the chest or difficulty breathing
  - Muscle aches, headache, or chills

**RED BUTTE GARDEN**  
THE UNIVERSITY OF UTAH

- Change in taste or smell
- Nausea, vomiting, or diarrhea
- Has your child or anyone in your household been ordered to quarantine or isolate by the Health Department due to COVID-19?

If your camper shows any of these signs prior to the start of camp they will not be allowed to attend camp that day. If your camper begins to exhibit any of these signs, they will be removed from camp and you will be contacted immediately and asked to pick up your camper as soon as possible.

**Important changes:**

- Campers must bring their own water or a bottle to fill, as there is no access to drinking fountains.
- Campers must bring a nut-free snack (and lunch for full-day camps).
- Surfaces and shared materials will be cleaned in between each camp. Where possible, campers will be assigned their own materials to limit shared contact.

**Check-in:** To limit large gatherings, check-in will occur in the Red Butte Garden parking lot, drive-in style. Look for camp staff at the bottom of each stairway and at the service gate past the Visitor Center entrance on the north end of the parking lot.

**Cancellations:** Camp may need to be cancelled due to state, University, or Garden concerns regarding COVID-19 outbreaks or restrictions. If the Garden cancels your camp session for a COVID-19 related reason, you will be given a prorated refund. Please be aware that following any COVID-19 exposures at camp, your camper will be asked to quarantine following the latest CDC guidelines. Your camper cannot attend camp until the end of the quarantine period. If your camper will miss additional camp sessions due to the quarantine, you will be given a full refund for any missed camps.

If you need to cancel your camp registration, contact Red Butte Garden as soon as possible. Refunds will be assessed on a case-by-case basis.
